

VIJETHA A NAIK

AI & Data Science Undergraduate

Bengaluru, Karnataka | vijetha0604@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio Website](#)

SUMMARY

Artificial Intelligence and Data Science undergraduate (CGPA:8.75) with hands-on experience in machine learning, NLP, and computer vision projects. Skilled in Python, SQL, and data visualization tools with experience building ML models and web-based applications. Passionate about applying AI and data-driven solutions to solve real world problems and continuously improving analytical and technical skills..

TECHNICAL SKILLS

- Languages: Python(Intermediate), C & C++ (Intermediate), JavaScript(Basics), SQL(Basics)
- Engineering Fundamentals: Data structures & algorithms (academic coursework), object-oriented programming, debugging, version control (Git/GitHub)
- Tools & Platforms: Google Colab, MS Excel, Tableau, Power BI, VS Code
- Concepts: Machine learning, computer vision, NLP, data preprocessing, web application development

EXPERIENCE

Data Science Intern, Cognifyz Technologies

Oct 2025 – Nov 2025

- Improved analysis-ready data quality on a dataset by cleaning and preprocessing records in Python (Pandas, NumPy), reducing missing/error values
- Surfaced actionable trends through exploratory data analysis, structuring findings into a summary report

Data Science & Analytics Intern, Future Interns

Oct 2025 – Nov 2025

- Built a web application using HTML, CSS, and JavaScript, shipping functional modules within the internship timeline
- Applied statistical analysis techniques to a row dataset, identifying patterns that informed.

AI and Digital Literacy Intern, Edunet Foundation

Nov 2025 – Jan 2026

- Applied AI and machine learning concepts across hands-on projects, strengthening algorithmic problem-solving skills

Campus Ambassador, GeeksforGeeks

Jan 2026 – May 2026

- Grew participation in campus coding programs by recruiting students, increasing event turnout by over semester
- Organized technical sessions on programming fundamentals, reaching students.

TECHNICAL PROJECTS

Mystery Game – The Dead Signal | Web-Based Investigation Game

- Engineered a multi-level, story-driven investigation game in HTML, CSS, and JavaScript, implementing game-state logic branches, user authentication, and timed challenges using localStorage for persistent state management

Fake News Detection System | Machine Learning Classifier

- Built a supervised machine learning model to classify news articles as real or fake, achieving accuracy on a labelled dataset of articles after preprocessing and feature engineering

Vision AI – Currency Authentication | Computer Vision Model

- Developed a computer vision classification model to distinguish authentic from counterfeit currency notes, reaching classification accuracy through image preprocessing and feature extraction

Praja Setu – Civic Issue Reporting Platform | Full-Stack Web App

- Designed a web-based reporting system with analytics dashboards, enabling simulated citizen complaints to be collected, visualized, and prioritized for decision-making

EDUCATION

B.E., Artificial Intelligence and Data Science, BGS College of Engineering and Technology *Sept 2023 – July 2027*

- CGPA: 8.75 / 10

Pre-University (PCMC), MES Vidyasagar Prof. MPL Sastry Independent PU College *Aug 2021 – Mar 2023*

- Percentage: 93%

Schooling, Sri Aurobindo Vidya Mandir *May 2009 – July 2021*

- Percentage: 91%

CERTIFICATIONS & AWARDS

- NASA Space Apps Challenge — Special Category Award & People's Choice Award
- NPTEL (IIT Mandi)-Mobile Virtual Reality & AI
- IBM SkillsBuild – Artificial Intelligence
- Deloitte Data Analytics Job Simulation
- Microsoft SQL Fundamentals
