VIJETHA A NAIK

AI & Data Science Undergraduate

Bengaluru, Karnataka | vijetha0604@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

AI & Data Science undergraduate with a CGPA of 8.75/10 and hands-on experience in Python, Artificial Intelligence, Machine Learning, and web development. Interested in building practical technology solutions and exploring AI-assisted tools to solve real-world problems. Quick learner with a strong interest in developing user-focused applications and adapting to new technologies.

TECHNICAL SKILLS

- **Programming:** Python (Intermediate), C/C++ (Intermediate), SQL
- **Data Science & ML:** Pandas, NumPy, Matplotlib, scikit-learn
- **Deep Learning:** Building foundational exposure to neural networks and PyTorch/TensorFlow
- **Computer Vision:** OpenCV, image preprocessing, feature extraction
- **Tools:** Git/GitHub, VS Code, Google Colab, Power BI, Tableau, Excel

EXPERIENCE

AI Intern | Infosys Springboard July 2026 – Present

- Reduced stockout/overstock incidents as measured by inventory accuracy metrics, by building supply chain analytics workflows using Python and Excel
- Cut weekly demand-forecasting cycle time as measured by reporting turnaround, by developing AI-assisted data analysis pipelines for supply chain visibility

Data Science & Analytics Intern | Future Interns Oct 2025 – Nov 2025

- Improved data accuracy across an 8,000-row dataset as measured by post-cleaning audit results, by engineering a Python-based validation and cleaning pipeline using Pandas and NumPy.

AI and Digital Literacy Intern | Edunet Foundation Nov 2025 – Jan 2026

- Delivered two AI and data-analysis mini-projects with 100% successful stakeholder demo rate, by applying pattern recognition and structured documentation to real datasets

Campus Ambassador | GeeksforGeeks Jan 2026 – May 2026

- Grew average session attendance to 50+ students, increase over baseline, by executing targeted outreach campaigns across technical sessions.

TECHNICAL PROJECTS

Fake News Detection System | Machine Learning Classifier

- Achieved 87% classification accuracy on a labeled news-article dataset by engineering a supervised ML pipeline with scikit-learn, including feature engineering and text preprocessing.

VisionAid – Currency Authentication | Computer Vision Model

- Reached 86.67% classification accuracy distinguishing authentic from counterfeit currency by building an image preprocessing and feature-extraction pipeline using OpenCV.

Mystery Game – The Dead Signal | Web-Based Investigation Game

- Built a multi-level, multi-page web application, completed user sessions, by implementing authentication, timed challenges, and persistent game-state logic in HTML/CSS/JavaScript.

EDUCATION

B.E., Artificial Intelligence and Data Science | BGS College of Engineering and Technology Sept 2023 – Present
CGPA: 8.75 / 10

Pre-University (PCMC) | MES Vidyasagar Prof. MPL Sastry Independent PU College Aug 2021 – Mar 2023
Percentage: 92.6%

CERTIFICATIONS & AWARDS

- Deloitte Data Analytics Job Simulation — data analysis, Excel reporting, stakeholder communication
- NASA Space Apps Challenge — Special Category Award & People's Choice Award
- NPTEL (IIT Mandi) — Mobile Virtual Reality & AI
- Microsoft SQL Fundamentals
- IBM SkillsBuild — AI
