

VIJETHA A NAIK

AI & Data Science Undergraduate

Bengaluru, Karnataka | vijetha0604@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio Website](#)

SUMMARY

AI & Data Science undergraduate (CGPA 8.75) with hands-on experience in data cleaning, structured reporting, and business insight generation using Python, Excel, SQL, and Power BI. Experienced in building analytical dashboards and translating data patterns into clear business observations. Eager to apply analytical and problem-solving skills to inventory health tracking, supply-demand analysis, and operational reporting in a fast-paced retail environment.

TECHNICAL SKILLS

- Data & Reporting Tools: Excel (pivot tables, conditional formatting, charts), Power BI, Tableau
- Languages: Python, SQL(Basics), C, C++, JavaScript(Basics)
- Analytics Skills: Data cleaning & validation, exploratory data analysis, root-cause analysis, structured reporting, dashboard development
- Engineering Fundamentals: Data structures & algorithms, object-oriented programming, version control (Git/GitHub), VS Code, Google Colab

EXPERIENCE

Data Science & Analytics Intern, Future Interns

Oct 2025 – Nov 2025

- Designed a structured data reporting pipeline for a 8,000-row dataset, cleaning and validating records in Python and Excel to ensure analysis-ready accuracy reducing data errors.
- Built Excel dashboards using pivot tables and conditional formatting, translating supply and demand patterns into business observations used in weekly performance reviews
- Identified recurring data availability gaps, performed root-cause analysis, and documented corrective steps — cutting reporting turnaround time.

Data Science Intern, Cognifyz Technologies

Oct 2025 – Nov 2025

- Improved inventory-ready dataset quality across records by executing systematic data cleaning in Python (Pandas, NumPy), reducing missing-value and error instances.
- Generated structured insight reports through exploratory data analysis, surfacing availability and demand trends that informed.
- Documented recurring data quality issues with root-cause notes, producing a reusable reporting template for ongoing KPI and performance tracking.

Campus Ambassador, GeeksforGeeks

Jan 2026 – May 2026

- Coordinated structured technical sessions per semester, driving 50-student participation through targeted outreach and disciplined follow-up tracking.
- Maintained structured attendance and engagement logs across programs, improving planning accuracy for subsequent sessions.
- Liaised between student community and GeeksforGeeks program team to flag low-participation issues, tracking action closures and verifying impact post-event

AI and Digital Literacy Intern, Edunet Foundation

Nov 2025 – Jan 2026

- Applied structured data analysis across hands-on projects, building a working foundation in data handling, pattern recognition, and insight documentation

TECHNICAL PROJECTS

Praja Setu – Civic Issue Reporting Platform | Full-Stack Analytics Dashboard

- Designed a web-based reporting system with analytics dashboards, enabling simulated citizen complaints to be collected, visualized, and prioritized for decision-making.

Fake News Detection System | Machine Learning Classifier

- Built a supervised ML classifier on a article labelled dataset, achieving 87% accuracy through data preprocessing, feature engineering, and model evaluation.

Mystery Game – The Dead Signal | Web-Based Investigation Game

- Developed a multi-level web application in HTML, CSS, and JavaScript with user authentication, timed challenges, and persistent game-state logic using local Storage.

Vision AI – Currency Authentication | Computer Vision Model

- Developed a computer vision classification model to distinguish authentic from counterfeit currency notes, reaching classification accuracy through image preprocessing and feature extraction.

EDUCATION

B.E., Artificial Intelligence and Data Science, BGS College of Engineering and Technology *Sept 2023 – July 2027*

- CGPA: 8.75 / 10

Pre-University (PCMC), MES Vidyasagar Prof. MPL Sastry Independent PU College *Aug 2021 – Mar 2023*

- Percentage: 92.6%

Schooling, Sri Aurobindo Vidya Mandir *May 2009 – July 2021*

- Percentage: 91.2%

CERTIFICATIONS & AWARDS

- Deloitte Data Analytics Job Simulation — business data analysis, Excel reporting, and stakeholder communication
- NASA Space Apps Challenge — Special Category Award & People's Choice Award
- NPTEL (IIT Mandi)-Mobile Virtual Reality & AI
- Microsoft SQL Fundamentals
- IBM Skills Build – Artificial Intelligence
