VIJETHA A NAIK

Artificial Intelligence and Data Science Undergraduate

Bengaluru, Karnataka | vijetha0604@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

AI & Data Science undergraduate with a CGPA of 8.75/10 and hands-on experience in Python, Artificial Intelligence, Machine Learning, and web development using HTML, CSS, and JavaScript. Interested in building practical technology solutions and exploring AI-assisted tools to solve real-world problems. Quick learner with a strong interest in developing user-focused applications and adapting to new technologies.

TECHNICAL SKILLS

- **Web Development:** HTML, CSS, JavaScript (basics), responsive form-based UI development
- **Programming Languages:** Python (Intermediate), Java (Basics), C & C++ (Intermediate), SQL (Basics)
- **Engineering Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, Git/GitHub, VS Code, Google Colab
- **Data & Reporting Tools:** Power BI, Tableau, Excel (pivot tables, dashboards)

EXPERIENCE

AI Intern | *Infosys Springboard* *July 2026 – Present*

- Streamlined inventory-tracking accuracy as measured by reduced stockout/overstock incidents, by building supply chain analytics workflows for a live inventory management system.
- Accelerated demand-forecasting turnaround as measured by weekly reporting cycle time, by applying AI-assisted data analysis to supply chain visibility processes.

Campus Ambassador | *GeeksforGeeks* *Jan 2026 – May 2026*

- Increased average session attendance to 50+ students as measured by a rise over baseline, by executing targeted outreach campaigns across technical sessions.

AI and Digital Literacy Intern | *Edunet Foundation* *Nov 2025 – Jan 2026*

- Delivered AI and data-analysis mini-projects as measured by successful stakeholder demos, by applying pattern recognition and structured documentation to real datasets.

Data Science & Analytics Intern | *Future Interns* *Oct 2025 – Nov 2025*

- Reduced data errors by across an 8,000-row dataset as measured by post-cleaning audit accuracy, by engineering a Python-based validation and cleaning pipeline.

TECHNICAL PROJECTS

Mystery Game – The Dead Signal | Web-Based Investigation Game (HTML, CSS, JavaScript)

- Built a multi-level, multi-page web application as measured user sessions completed, by implementing user authentication, timed challenges, and persistent game-state logic using structured HTML/CSS/JS and local storage.

Fake News Detection System | Machine Learning Classifier

- Achieved 87% classification accuracy on a labeled news-article dataset by engineering a supervised ML pipeline with feature engineering and preprocessing.

VisionAid – Currency Authentication | Computer Vision Model

- Reached 86.67% classification accuracy distinguishing authentic from counterfeit currency by building an image preprocessing and feature-extraction pipeline.

EDUCATION

B.E., Artificial Intelligence and Data Science | BGS College of Engineering and Technology Sept 2023 – Present
CGPA: 8.75 / 10

Pre-University (PCMC) | MES Vidyasagar Prof. MPL Sastry Independent PU College Aug 2021 – Mar 2023
Percentage: 92.6%

CERTIFICATIONS & AWARDS

- Deloitte Data Analytics Job Simulation — business data analysis, Excel reporting, stakeholder communication
- NASA Space Apps Challenge — Special Category Award & People's Choice Award
- NPTEL (IIT Mandi) — Mobile Virtual Reality & AI
- Microsoft SQL Fundamentals
- IBM SkillsBuild — Artificial Intelligence
